

# VEEAM REPLICATION

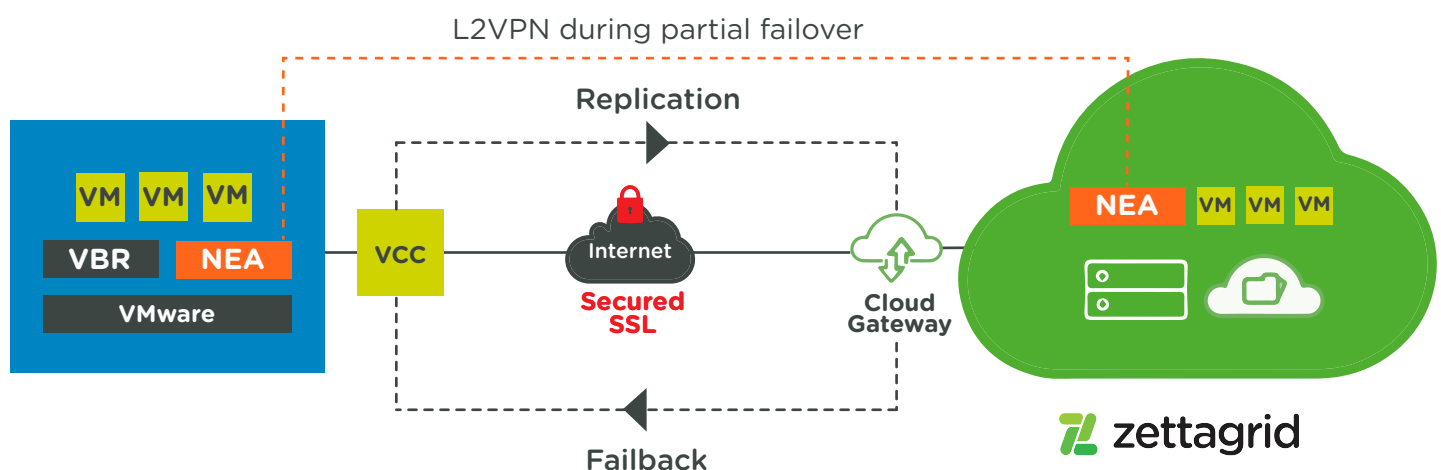

The days of investing IT budgets into building a secondary data centre for disaster recovery are over. Today's cloud technology makes it easier than ever to leverage IT resources and only use them when you need them. You can leverage the expertise of an organization that lives and breathes DR, allowing you to focus on your core business.

Zettagrid is an award-winning cloud provider of Infrastructure as a Service (IaaS), Backup as a Service (BaaS) and Disaster Recovery as a Service (DRaaS). We offer enterprise grade, on-demand data center infrastructure with direct connectivity. All services are fully automated and delivered without contracts to help lower capital expenditure (CapEx) ensuring the reliability and flexibility business need. With availability zones in Singapore, Jakarta, Cibitung, Sydney, Melbourne, Perth, Adelaide and Brisbane, Zettagrid offers innovative and cutting edge cloud infrastructure to the whole APAC region.

## Disaster Recovery with Veeam Replication

**Veeam Replication** provides advanced, image-based VM replication and streamlined disaster recovery system leveraging on Veeam Cloud Connect technology — ensuring High Availability of your mission-critical applications.

### How it Works

## Key Features

### Simple Disaster Recovery

Replicate your VM into Zettagrid cloud with no additional Veeam licensing required\*.

### Full or Partial Failover

You can perform full or partial failovers within VM group and simple failback.

### Full Veeam integration

Add Zettagrid as your disaster recovery target when you are running Veeam Availability Suite in your on-premise site.

### End-to-end encryption

Rest assured that all data at source, in flight, and at rest will be encrypted.

### Unlimited data traffic

Zero charge for all of the upload/download data traffic for the replication of your virtual machines.

## Supported Environments

### Hypervisors

- VMware

## Benefits

### No up-front investment

No need to invest in additional replication software and a secondary datacenter.

### Rapid disaster recovery

Easy to deploy and you will be protected quickly with RPOs in 15 minutes.

### Simple Pricing

You simply pay one all-inclusive monthly operational expense.

### Local Storage & Support

Eight availability zones across Singapore, Indonesia and Australia to ensure your data stays close and with 24x7 on-call support

### Free DR testing anytime

We recognize you need to test your DR process regularly. We enable you to have a disaster recovery testing simulation twice a year.
